

# Coronavirus (COVID-19)

## PRECAUTIONARY MEASURES

## CALL AHEAD SCREENING PROCESS FOR PATIENTS

Before arriving in person at our office please **call us first at 843 342-9100 for a brief phone screening and instructions regarding possible flu-like symptoms.**

All **PATIENTS**, and **ANY PERSONS** accompanying patients to their appointment, will be asked a list of questions based on the CDC guidelines and recommendations **PRIOR** to arriving for an appointment.

**RESTRICTIONS—PATIENTS ONLY TO APPOINTMENTS-** We request patients to attend their appointments without an accompanying family member or friend coming into the office unless it is absolutely necessary. We ask that family members or friends wait outside in the car or we have outside covered seating. This is an additional precautionary measure to limit the amount of close contact in the waiting room. We also have removed some seats from our waiting room to increase the distance between waiting room seats. We have deep cleaned the office with cleaner solution recommended by the CDC. We have removed toys and magazines from our waiting room and ask that you bring your own reading material. Should you experience flu-like symptoms we suggest you contact MUSC for free telehealth visit using password COVID19 by going to website <https://campaigns.muschealth.org/virtual-care/index.html>
